Introduction

UK politics of first decade of the 21st century has been dominated by

Meaningless Spin

If you miss this

Opportunity

Will there be another

in the next

50 Years ?

So the General Population who just wants a relaxed life  
has been simply Turned off politics

This suits those in Power and those abusing Power Fine

Therefore the Citizens Alliance wishes to build a

### NEW IDEOLOGY

That everyone can Relate to, and support the Overall Goal.

The Policies we have chosen can make this happen.

The Technology we have built can help in this quest.

The UK simply CANNOT

Reach this Goal while the Government prefers DOGMA

As a developed industrial country like UK  
Continues to get more Prosperous Long-Term.

ONLY by building ever more complex goods to sell to the rest of the world and using the money earned in taxes

- to educate the young to a greater degree
- to build large infrastructure projects
- to provide an adequate social safety net

Therefore enabling yet more complex systems to be built and shipped by the next generation.

As the previous technology has now been adopted by less developed countries, who are now selling those goods to you and the rest of the world at a lower cost than you sold to them.

This Government has however attempted to go for a QUICK FIX

Using SPIN and House price inflation  
brought about by allowing mass Immigration  
To artificially increase the demand for housing  
To give everyone the Illusion of prosperity.

You think the Government did not know what it was doing  
They know they would have been out by now  
if middle England did not feel Richer

The only country able to keep this conjuring trick going for more than  
ONE generation is the USA  
As the world at this moment in history buys and Sells its goods in Dollars

It also knows how to keep Business confidence and its Central Bank works  
for the interests of the USA.

#### THE FUTURE FOR THE AVERAGE CITIZEN IN THE UK

It will NOT be Orwellian.  
At least not unless the economy turns Real Bad.  
George Orwell wrote 1984 in a world of the Burocrat and paper

No the State will ensure Public Compliance on the simple fact

That Everyone needs to Eat and so needs a job

Therefore When You Accept ID Cards with chips in them

If the Government or the Police want to Intimidate any individual  
for what ever reason  
Remember Fate puts you the Average person in this Position by circumstances

They will use the Satellites that are already in space  
To alter your Personal History in an instant  
So it will be closer to the film LOGANS RUN

What are you going to do  
Where can you go  
Who can you explain to  
That this is wrong  
You are what your ID says you are

The only way to avoid this future

Is to show the Government on Mass

SPIN no longer is working

They will then adopt a new strategy to Govern You
