

Legal Profession

Monday, 17 September 2007

My case like perhaps 100s of others is a MANIFESTATION of the Unacceptable variables Coming together.

Money
Corruption
Absolute Police Discretion (Crown Rights)
Peer Pressure
Government Spin
Government Closing Down the UK Complaints Department from 1999
HUMAN NATURE!

MAKING YOUR PROFESSION IMPOTENT

The UK may have the second most Sophisticated LEGAL system in the World Providing massive economic Advantage and allowing the City of London to function and act as the Worlds Banker.

However if a 16 year old girl and a 60 Year old man with no legal experience Except the commonsense and understanding they have grown up with. Can see and willing to put their name to the Bloody Obvious and I suggest any of the other 60 million citizens that do not have self Interest would do the same

It is your DUTY to cross the Mine field and bring back public confidence.

BY INSISTING THE

Fail Safes Removed over the last 10 years
Are put back in place and Strengthened

Incidentally the list of Laymans names and address

I personally know none of them, all names and signatures where taken for this page in 1 hour at Bradford Central Bus Station.

Due to the fact that the University is very International. Several signatures are from people from other Countries. This shows people the World over have a common Understanding

I also made sure that demographics where across the Age range from 16 to 65 Showing that this understanding of Right and Wrong is learnt from NURTURE from an early age
